introducing O SPA

spa rituals

O SPA London is a completely certified organic spa experience designed for both face and body. We proudly choose products created with time proven organic essential oils and extracts of aromatic plants and herbs. Our earth and sea botanicals are designed to actively treat, soothe, nourish, revive and restore the skin and the body.

O SPA London features AromaCollagen Marine™ and Fructophores® at its core, a collagen-rich formulation made with organic fruit and seaweed extracts with organic almond oil and shea butter to naturally enrich, protect and moisturize the skin.

Drawing on the ancient practices from cultures across the world the O SPA London experience takes you on an exotic multi-sensory journey of rejuvenation and relaxation with all ingredients being sourced from organic, sustainable sources, such as The Eden Project, (the largest biosphere project in the world), Lisadell House, the organic medicinal co-operative on the shores of the clear Atlantic Ocean on the West Coast of Ireland and the Georgina Koomson's Fair Trade women's co-operative in Ghana.

the facial treatments

Our unique approach to facial treatments allows your therapist to provide a treatment that is prescribed exclusively for you. The therapist starts with an analysis of your skin's unique requirements and then selects the most intelligent botanicals and the purest essential oils available to restore you to your radiant best. All treatments include an intensive eye masque experience.

re::vive – 75 minutes \$199

An intense lifting oxygenating facial featuring pure marine botanicals, intensive restructuring masques and invigorating facial massage. The active ingredients are pushed deep into the skin with the assistance of the oxypressure system which also pushes oxygen into the deeper layers of the skin, plumping up fine lines and softening the effects of time.

re::new – 75 minutes \$199

A deeply relaxing anti-aging facial utilizing the oxypressure system designed to stimulate cellular regeneration by removing dehydrated surface cells with active fruit acids. Firming and elastizing collagen improves tone and texture with the additional use of a sea buckthorn concentrate to lock in moisture and protect the skin against further free radical damage.

re::hydrate – 60 minutes \$149

A deeply hydrating facial treatment to improve moisture levels in the skin. Laender and rose geranium work to retain moisture in the skin while the unique Fructophores and the active ingredient essential glow masque work to increase the moisture levels and create a smooth as silk complexion.

re::balance – 60 minutes \$149

An active treatment for problem and impure skin. Balances and treats congested skin with a deeply cleansing aromatic steam therapy followed by fruit acids to gently exfoliate surface cells leaving the skin fresh and clear. A facial massage to improve circulation and stimulate the complexion completes the experience.

re::fresh – 30 minutes \$89

This active facial addresses those areas of concern quickly and effectively. The skin is prepped, deep cleansed, and refreshed with a masque before being boosted, protected and rehydrated.

Our unique body concept allows us to draw on the teachings of the ancient masters and create individual, effective solutions to meet the needs and requirements of your body. Detox, deep cleanse, rehydrate or simply relax – the choice is yours.

QUBR **Therapeutic mud treatments**

re::storative – 30 minutes **\$49**

The signature O SPA London therapeutic mud is gently dispersed in relaxing warm water in a ceramic foot spa, while active Himalayan salts are added to the blend. Through the process of osmosis, the 72 active minerals are absorbed into the body and distributed to those parts of the body needing them the most while the Fuller's Earth component draws the toxins from the body.

de::toxifying – 45 minutes **\$99**

The signature O SPA London therapeutic mud is gently warmed and then massaged into the entire body before being cocooned in a relaxing wrap. After the detoxification process, enjoy a warm shower and an application of nourishing O SPA detoxifying oil blend for the body.

Inspired by the ancient rejuvenating arts of Ayurveda & Aromatherapy, this multi-sensory treatment created in conjunction with Absolute Aromas™ invites you to escape to a world of bliss while discovering complete tranquility.

shirodosha™ experience – 75 minutes **\$169**

An exceptional experience, the feet are bathed and polished with aromatic Himalayan salts in preparation for a powerful de-stressing Ayurvedic head massage. Then Shirodosha commences with a continuous flow of warm aromatic herbal oils drizzled onto the forehead for calming and soothing the mind & body. Finally, a harmonizing full-body massage restores vitality as Dosha specific warm aromatic oils are drizzled over the body.

pindadosha™ experience – 75 minutes **\$169**

Inspired by ancient tradition, the Pindadosha treatment uses Pindas — hot herbs encased in a cotton bag — to massage. Experience this deep cleansing thermal treatment to detoxify and rejuvenate the body. Warm aromatic oils are drizzled on the body which is then massaged using the Pindas, followed by a foot pampering ritual using aromatic Himalayan salts. The fusion of heated herbs and oils melts away tension, exfoliates and softens the skin and the inclusion of pure ginger invigorates the body's own natural cleansing system, resulting in a boost in energy and vitality.

shiroabhyanga™ experience – 30 minutes **\$79**

An indulgent experience, the Shiroabhyanga experience is an ancient ayurvedic Indian head massage. A tradition handed down from generation to generation in the sub-continent, your third eye will be relaxed before your energy pathways are cleared by the subtle maina pressure point massage technique, your doshas rebalanced and hair and scalp nourished with the specialty oils and your pranas restored. The result will be a feeling of deep relaxation and renewed energy.

pada-abhyangam™ – 30 minutes **\$79**

A treatment of pure indulgence, the pada-abhyanga is an ancient ayurvedic Indian foot, ankle and lower leg massage ritual which can be traced back 5000 years. First, the skin is cleansed and polished with Himalayan salts, then the massage is completed with the specialty dosha oil to rebalance the chakras while working on the marma points with a light pressure to relieve the stress and tension of the lower leg, ankles, and feet. This treatment offers many benefits as it nourishes the skin, improves blood and lymph circulation and soothes the agitated mind. It relaxes the muscles of the feet and the legs, and according to ayurvedic scripts, it may also help to alleviate stress, including anxiety, nervousness and depression.

Crystals from around the world have been carefully selected for their therapeutic and relaxing qualities. Experience uniquely relaxing and unique treatments created to harmonize the chakras of the body.

Kristalakarma™ complete experience – 75 minutes **\$169**

Harmonize the chakras of the body with this unique treatment. The treatment commences with a cleansing of the feet and then the body is polished and charged with the energy of aromatic Himalayan salts in preparation for a therapeutic experience. The therapist provides a number of oils for you to choose from in order to establish the needs of the body before using polished ancient crystals of Amethyst to massage the body and to restore the energy, while many other semi-precious crystals are placed on the body to bring peace and harmony to the Chakras.

Kristalakarma™ classic experience – 45 minutes **\$119**

Warm crystals and specially selected dosha oils are chosen to relieve the stressed muscles of the neck, back and shoulders. Classical Acupuncture is a system of healing that has been practiced in China and other Eastern countries for thousands of years, with some canons of acupuncture dating back to 500BC. Although often described as a means of pain relief, it is in fact used to treat a wide range of illnesses. Its focus is on improving the overall well being of the patient rather than the isolated treatment of specific symptoms.

- back pain
- low energy levels – lethargy
- sleeping problems
- insomnia
- migraines, rheumatism
- sciatica, skin conditions (eczema)
- IBS
- crohn's disease
- concentration
- depression - hopelessness
- indeterminate aches and pains
- pain management
- sports-related aches and pains
- injuries
- bloating - water retention

Classical Acupuncture, when practiced correctly according to natural laws is one of the most beautiful systems of medicine known to humans. It is both an art and a science. The fundamental principle of its practice is the giving of constant attention to diagnosis and treatment of the causes rather than the symptoms of disease. In essence acupuncture is strengthening and revitalizing the whole body by finding and addressing the cause of any energetic patterns that are out of balance. Once balance is regained, the body will quickly begin to heal itself again and return to a normal level of energy and vitality.

Acupuncture is a safe treatment for all many people seek acupuncture for help with specific symptoms and conditions which might include: back pain, low energy levels, sleeping problems, migraines, rheumatism, sciatica, skin conditions, IBS, Crohn's disease, problems with concentration, depression, lethargy, indeterminate aches and pains, etc. Traditionally acupuncture was used as a preventative medicine for disease and illness. Now that many people are prioritizing their health and well-being, acupuncture has taken on the role of maintaining optimal health and vitality.
